

## **THE LEGENDS**

LEGENDS, a new four star luxe hotel, lies in the centre of the fishing village of Grand Gaube, not far from Grand Bay, in the north-eastern corner of Mauritius.

This beautiful bay, which stretches as far as the distant horizon, is an invigorating setting for both mind and body.

The hotel's concept is based on the principles of Feng Shui, an ancient philosophy with its roots in China, enabling guests to experience the art of living in harmony with the environment.

LEGENDS is where the five elements are: water, wood, fire, earth and metal. Their corresponding colours, are in harmonious balance, a feast of colour and shape, of sound, of scent and taste for the 5 senses

Around a heavenly little cove, Legends, a luxury 4 star, was created with a vision towards a new dimension. Freshness, harmony with the environment and the soft blending of colours are the prime objectives.

Water, earth, wood, fire and metal set off one another and introduce the basic concepts of Feng Shui to visitors. This philosophy, implanted in ancient China, is based on the principle that human beings must live in harmony with themselves and their surroundings.
